

OMAR ELSHENAWY

Penetration Tester

Phone: +20 120 839 2099 | **Email:** me@omarelshenawy.com | **Location:** Cairo, Egypt
LinkedIn: linkedin.com/in/omarelshenawy | **Website:** omarelshenawy.com

PROFESSIONAL SUMMARY

Computer Science graduate specializing in offensive security, with hands-on experience in web, network, and mobile penetration testing. Skilled in automating security assessments with Python and Bash, and producing actionable technical reports for stakeholders.

WORK EXPERIENCE

Penetration Testing Trainee

Oct. 2025 – Jan. 2026

National Telecommunication Institute (NTI)

Giza, EG

- Conducted full-cycle penetration tests across web applications, network infrastructure, and mobile endpoints, utilizing industry-standard frameworks (PTES).
- Executed Red Team operations within simulated Active Directory environments, performing lateral movement, privilege escalation, and IDS/firewall evasion.
- Leveraged Python and Bash scripting to automate reconnaissance workflows and streamline post-exploitation tasks on Linux systems.
- Authored professional vulnerability assessment reports, translating technical findings into actionable remediation strategies for stakeholders.

Penetration Testing Trainee

Nov. 2024 – Jan. 2025

CyberX

Remote

- Conducted black-box penetration testing and vulnerability assessments on web assets, aligning methodologies with the OWASP Top 10.
- Produced technical reports using CVSS to prioritize findings for technical and executive stakeholders.

Cyber Security Trainee

Oct. 2024 – Nov. 2024

National Telecommunication Institute (NTI)

Cairo, EG

- Configured ACLs, firewall rules, IDS/IPS to simulate network defenses, reinforcing understanding of attack-defense dynamics.
- Executed system hardening on Linux and Windows endpoints to reduce the attack surface and enforce access control policies.
- Conducted vulnerability scanning and patch management simulation to secure infrastructure against common CVEs.

EDUCATION

Bachelor of Science in Computer Science

January 2025

Arab Open University

Cairo, EG

- Relevant Coursework: Computer Networks, Operating Systems, Computer Architecture, Web Technologies, Cryptography.
- Graduation Project: Developed a mentorship platform integrating secure authentication and Role-Based Access Control (RBAC). Conducted static analysis using MobSF to identify and remediate security vulnerabilities.

SKILLS

- Web application & API security testing, identifying OWASP Top 10 risks and other common vulnerabilities across authentication, authorization, and business logic
- Network reconnaissance & vulnerability assessment
- Active Directory attacks & Windows/Linux privilege escalation
- Android/iOS security testing (static & dynamic analysis)
- Security scripting (Python, Bash, PowerShell)
- Professional skills: analytical problem-solving, structured technical reporting, clear communication, and responsible testing

CERTIFICATES

- Google Cybersecurity Professional Certificate
- CyberX Penetration Testing Internship Certificate.
- Huawei (HCIA-Security) Certificate.

LANGUAGES

- Arabic: Native
- English: Fluent (C1)
- German: Upper Intermediate (B2)
